CONCRETE MASONRY UNITS

**integrated
brickworks**

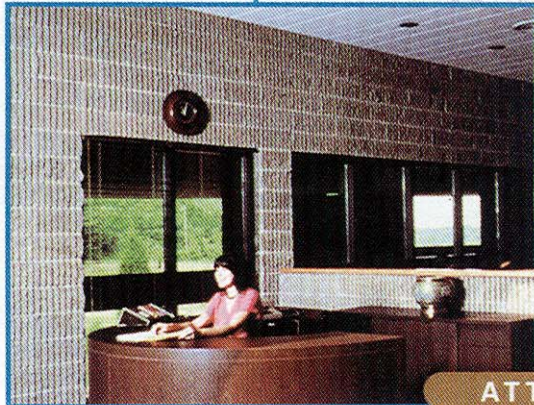

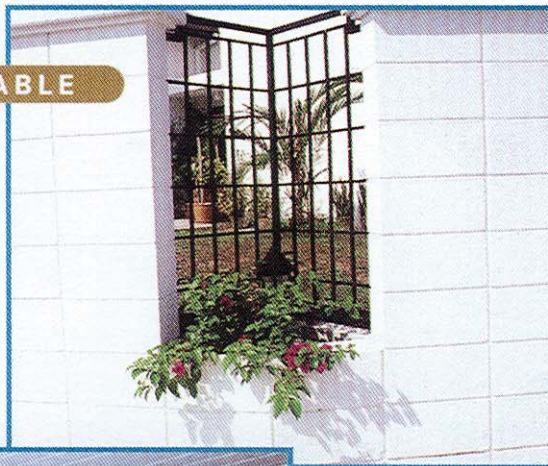

INTEGRATED.

Designed for you to put up a bold front.

Ideal for residential, commercial and industrial developments, Integrated Concrete Masonry Units have been specially designed to become an integral part of your building plan. Here's why...

DURABLE

Their distinctive texture and color simply mean there is no need for painting and plastering.

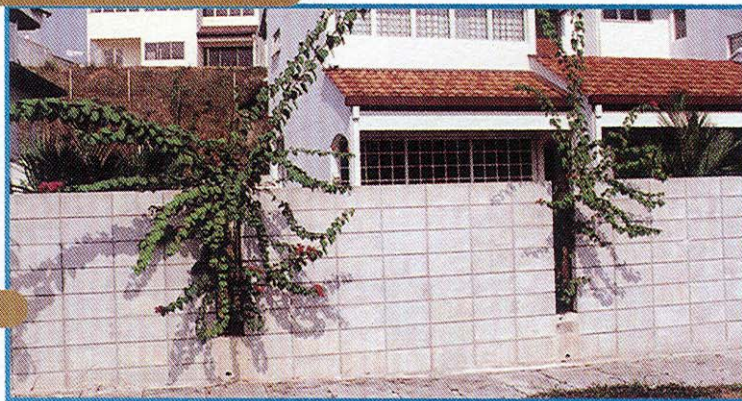

Unlike normal building blocks, these units come in different textures to add a distinctive look to your home.

ATTRACTIVE

Manufactured to international standards of quality, at local prices. Cost effective through its integral use of reinforcement via its cavities.

ECONOMICAL

*Integrated Concrete Masonry Units. Another quality product from **Integrated Brickworks.***
